### **CLIVET AIR SOURCE HEAT PUMP** PACKAGE

Compact air source heat pump, heating & domestic hot water package, with pre-plumbed, indirect, unvented stainless-steel hot water storage cylinder. LIFETIME

THE HOT WATER STORAGE SPECIALISTS

– EST. 1989 –

### CLIVET AIR SOURCE HEAT PUMP PACKAGE

### **FEATURES & BENEFITS**

The Clivet air-to-water air source heat pump package is a highly efficient, low carbon alternative to traditional heating and hot water systems, offering powerful heating even at temperatures of -25°C. The Duplex stainless-steel cylinders feature a purpose-designed coil which allows maximum heat transfer of renewable energy into the stored water. Factory-fitted 3 kW immersion heaters provide back-up heat.

- ✓ High performance heating & hot water solution
- ✓ Underfloor heating, traditional radiators & domestic hot water up to 60°C
- ✓ External Clivet Elfo-Energy 2.0 monobloc unit in single phase outputs from 4kW to 16kW
- ✓ Single fan units on all outputs
- ✓ High energy-efficiency ERP A+++
  / A++
- ✓ Reduces heating bills & carbon emissions
- ✓ Wide operation range
- ✓ DC Inverter technology matches load to energy demand
- ✓ Smart-grid and photovoltaic function
- ✓ R32 environmentally sustainable refrigerant
- ✓ All-in-one concept no refrigerant piping work
- Can be retrofitted alongside an existing heating system

- ✓ Easy installation, maintenance & commissioning
- ✓ Control remotely from anywhere with MSmartLife app
- ✓ MCS approved
- ✓ Pre-plumbed cylinder with pre-fabricated pipework, wiring and an integrated 50 litre buffer
- ✓ Cylinders available in 170-300 litre capacities
- ✓ Supplies mains pressure hot water and high flow rates
- √ 7 year manufacturers warranty on air source heat pump & lifetime on cylinder inner container (2 years on components)\*

<sup>\*</sup> Terms & conditions apply

### Tempest!

Unvented cylinders are now formed from 2304 Duplex Stainless Steel. Tempest units are finished using a wipe clean, white coated steel case. Continuing our philosophy of using only the the finest materials.

the heat loss from the cylinders is minimal, making them extremely economical to run.

### \* Indicates Stock Item

**TRISTOR** 150L Direct\* £1364

We are so confident of the construction that we offer a lifetime

### Tristor Manual Fill

Available in stainless-steel or copper, the Tristor Manual Fill thermal store is an ideal option for integrating different heat sources to deliver domestic hot water and space heating. The ribbed heat exchanger coil maximises energy efficiency and as no overflow is required, this type of thermal store is particularly suited to apartment type buildings.

Fully insulated to minimise any heat loss Domestic hot blended set to 47°C

Pro 3 Fusion Square in Stainless Steel (3FSRVS)	£933.95
And of Course the Cube unit Itself	£870.00

With a Quooker in your kitchen you always have instant 100°C boiling water alongside regular hot and cold. Add a Quooker CUBE and you will also have filtered chilled and sparkling water – all from the same tap.

5-7 Days Leadtime For all Other products

The Quooker system consists of a small tank in the kitchen cupboard that is linked to the boiling water tap on the worktop. The tank acts like a vacuum flask connected to the water mains. The air in the insulated wall is so thin that the heat is unable to escape.

It therefore takes very little energy (just 10 watts) to keep the water in the tank at 110°C. The water only starts to boil when the tap is turned on and the temperature of the out-flowing water drops to 100°C. While the water is flowing out of the tap, fresh water immediately flows into the tank.

## **CUBE 2.0**

Sparkling CO<sub>2</sub> offer

With the CUBE, you can enjoy a glass of sparkling fresh water or prepare the most delicious lemonades and cocktails in no time at all. So you get everything from one tap: boiling, hot, cold, chilled and sparkling water.

When you buy a CUBE, you will receive 5  $\rm CO_2$  cylinders FREE – the equivalent of 300 litre-bottles of sparkling water.

After installation of the system, you register your Quooker on our website along with your CUBE. The CUBE has a unique serial number. This serial number can be found on the sticker on the side of the CUBE. This unique serial number can be used as discount code in the Quooker webshop. Follow the steps below to receive your free set of  $\mathrm{CO}_2$  cylinders:
