

ULTRAHEAT

Planal & Lanner

Panel Radiators

2023 GBP

A warm welcome to Ultraheat and our range of Planal and Lanner panel radiators.

Panel radiators have enduring appeal and excellent heat output – a winning combination in anyone’s book. We invite you to browse the Ultraheat Planal and Lanner collection of horizontal and vertical models to see for yourself the versatile choice and impressive specs that our products all have to offer.

At Ultraheat, we pride ourselves on our hard-earned reputation for quality engineering and exacting quality control.

PIT▲CS

Ultraheat is a heating division of Pitacs Limited

Quality certified to British and European standards

PLANAL & LANNER

VALVES COMPATIBILITY

Ultraheat valves come in a range of styles, designs and finishes, giving you an excellent choice to accessorise your radiators. Valves may perform very different functions, but that doesn't mean they can't be stylish as well.

TERMS OF DELIVERY

Prices quoted are for UK Mainland only.

For other locations, please contact our Sales Office directly on +44 (0)1908 010333.

Do not book your plumber until the goods have been delivered and checked.

Date of delivery

For items in stock, a suitable delivery date should be arranged at time of order.

For out-of-stock items, an estimated delivery time will be advised at the time of order.

Please note that the estimated delivery date does not form part of the contract.

Time of delivery

Standard service is any time between 8am and 5pm. Timed deliveries can be made but at an extra cost.

In some instances it may be more convenient to have items delivered to a work address where someone is present to sign for them. In the unlikely event that the goods do not arrive before 5pm (for standard service, or for a timed delivery), please let us know the following or same day.

Meeting the delivery

Someone will need to be at the delivery address on the day of delivery.

Outside packaging should be inspected before signing the delivery note*.

If there is no-one available to sign for delivery, arrangements will be made to re-deliver at an additional cost to the customer.

*If parcels are damaged or have been tampered with in any way they should not be signed for unless marked 'DAMAGED' or 'SHORT DELIVERED'.

No claim for damage in transit or shortage will be accepted if signed for 'RECEIVED IN GOOD CONDITION' or 'UNCHECKED' or 'NOT EXAMINED'.

Please note that, due to Health and Safety legislation, the driver is only allowed to deliver radiators to the nearest hard standing (pavement or driveway) and is not required to carry the radiators up any steps.

Where a radiator is over 25KG in weight, please ensure someone is available at the delivery address to assist the driver.

Within 24 hours of receiving radiators, please unwrap and thoroughly inspect goods. Any visible fault or imperfection (or missing parts) must be reported to Ultraheat or in the case this has been purchased from a reseller, please contact them directly within one working day (24 hours) of receipt to enable us to send a replacement, otherwise goods shall be deemed to be acceptable.

A contents sheet will be enclosed in the box with the radiator to enable you to check that all parts are present.

In the unlikely event that your radiator is visibly faulty, please ensure that you retain all the original packaging. We cannot accept returned radiators on the grounds of visible damage or visible fault if it has been plumbed in.

Pipe centres

If you require measurements, please call our sales office or refer to our website: www.ultraheat.co.uk

Pipe centre measurements and other measurements may have higher variance in Stainless Steel products as they are hand made, therefore you are advised to erect your pipes after you have received the radiator.

Pipe centre measurements are incorporating pair of valve distance of 45mm each to total of 90mm where applicable.

We recommend delivery and receipt of product before positioning pipework.

BTU Heat Output

Heat Output (BTU/Watt) quoted is based on Delta T50 (Δ) and may vary depending on colour and finish of radiator.

Where multiple finishes are available, heat outputs are stated for painted finishes; for chrome finishes in these ranges, quoted heat outputs should be reduced by 20%. Please enquire for more details.
