### \*Indicated Non Stocked Item

Unvented cylinders are now formed from 2304 Duplex Stainless Steel. Tempest units are finished using a wipe clean, white coated steel case. Continuing our philosophy of using only the finest materials, the heat loss from the cylinders is minimal, making them extremely economical to run.

We are so confident of the construction that we offer a lifetime guarantee.

## Tristor Manual Fill

Tristor 150 Direct

£1495.00

Available in stainless-steel or copper, the Tristor Manual Fill thermal store is an ideal option for integrating different heat sources to deliver domestic hot water and space heating. The ribbed heat exchanger coil maximises energy efficiency and as no overflow is required, this type of thermal store is particularly suited to apartment type buildings.

# Quooker®

The tap that does it all

## No more waiting for the kettle to boil

With a Quooker in your kitchen you always have 100°C boiling water alongside regular hot and cold. Add a CUBE and you will also have filtered chilled and sparkling water – all from one tap.

## Sparkling & chilled water

With the CUBE, you can enjoy a glass of sparkling fresh water or prepare the most delicious lemonades and cocktails in no time at all.

So you get everything from one tap: boiling, hot, cold, chilled and sparkling water.
